World Class

Research Competitiveness Draws World Attention

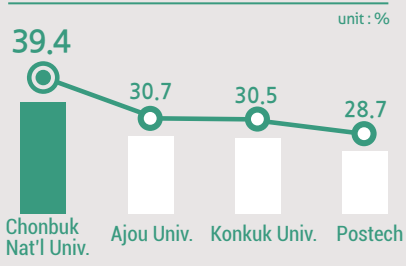

Chonbuk National University's research competitiveness has garnered the attention of academic circle around the world. After attaining the highest increase rate in SCI papers (MEST, 2009) CBNU placed 1st among regional comprehensive universities in the amount of research funds granted (MEST, 2011-2012). CBNU is positioning itself anew as a world-class research university with Korea's first, and the world's fifth High-enthalpy Plasma Research Center.

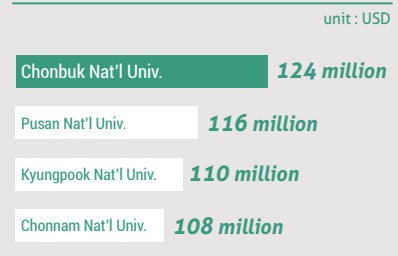

Foreign scholars in CBNU who have participated in WCU business

CBNU's research competitiveness is surprising the world.

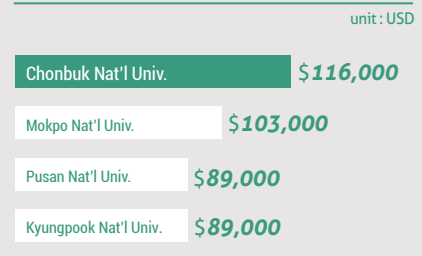

1st in Korea SCI Increase Rate of Papers (MEST '12)

1st among National Universities Research Grants (MEST '12)

1st among National Universities Research Grants per Faculty Member (MEST '12)

Research that amazes the world happens in the center of CBNU.

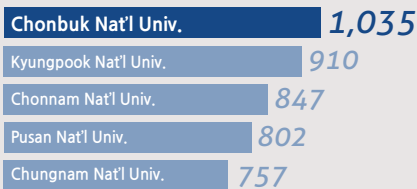

Globally Competitive University

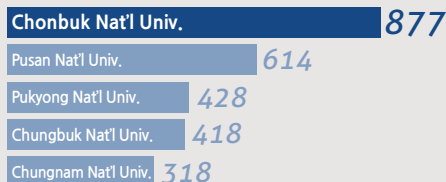

Chonbuk National University stands out as a global university. Among national universities, CBNU sends more students abroad on student exchange programs than any other university, while hosting some of the most international degree seeking students (2012). International researchers are conducting active joint research with CBNU researchers in World Class University program and 'Los Alamos National Laboratory-CBNU Engineering Institute Korea' collocated operating with Los Alamos National Laboratory in the USA. CBNU collaborates with 260 universities from 40 countries in the world.

The Most
Dynamic
University,
Chonbuk
National
University

CBNU is one of the most dynamically changing universities in the world.

We excel in the areas of research and university-industry cooperation and we place an importance on the quality of education for our students.

Among the regional core universities, CBNU was the first to receive more than 100 million U.S. dollars worth of research funds. We are currently undertaking global-scale, state-of-the-art research infrastructure projects. The level of competency of our research professors is unmatched nationally. The Korean government has even recognized our school as the 'best teaching' university. We are receiving the global spotlight in the academic community for being the most dynamic university, the most talked-about university.

While we are proud of these accomplishments, we cannot be satisfied yet. We are striving to become a prestigious university, not only on a regional and national scale but also on a global level. We are constantly challenging ourselves for a bigger and brighter future.

Watch out for CBNU. With enhanced multidisciplinary research, strategic university-industry cooperation and high-quality education programs, we are going to become Korea's growth driver.

The most dynamic university, Chonbuk National University, is vaulting into

Geo-Suk Suh
President
Chonbuk National University

Korea's Landmark of Global Prestige

CBNU Cultivates Great People

Through world-class research, teaching students to contribute to the development of mankind is the best mission of our university. Chonbuk National University is committed to the peace and development of mankind by building a global standard education system and a research environment.

*Global talent that the world needs,
Global talent that helps the world,
Global talent that leads the world.*

*Chonbuk National University
Cultivates Great People.*
